CPS is a self-sustaining, non-profit agency staffed by student clinicians. Payment for services must be made at the time of the appointment. Our affiliation with KU's School of Education as a training center enables CPS to maintain a fee scale that makes our services accessible to the general public.

\_\_\_\_\_ I understand that the intake fee of \$25.00 for all clients is payable at the intake session. At that time additional fees and services are discussed and agreed upon. CPS does not accept third party reimbursement (i.e., insurance or Medicaid payments). Rates are subject to change.

\_\_\_\_\_ I understand that the comprehensive assessment fee is payable in advance or at the first assessment session. No subsequent sessions will be scheduled without payment.
