CPS is a self-sustaining, non-profit agency staffed by student clinicians. Payment for services must be made at the time of the appointment. Our affiliation with KU's School of Education as a training center enables CPS to maintain a fee scale that makes our services accessible to the general public.

Client signatures required at intake:

_____ I understand that the intake fee of \$25.00 for all clients is payable at the intake session. At that time additional fees and services are discussed and agreed upon. CPS does not accept third party reimbursement (i.e., insurance or Medicaid payments). Rates are subject to change.

_____ I understand that assessment fees are payable at the first assessment session. Subsequent sessions will not be scheduled until fees are paid in full.
